Stockholm 7<sup>th</sup> of September, 2018

Dear customers,

Our investments gradually show expected results and will give us full effect next year. We actively work on increasing our customer focus and market presence, we train and engage our employees, we invest in a new and modern ERP and we keep working on to make our production even more efficient. Our newly founded Growth Teams expect to lead to interesting business ideas and to a stronger business culture within our Group.

During this summer we installed our new forging furnace at NFAB in Örnsköldsvik. The installation is nearly done and we are currently undergoing the final tests before approval. The new furnace will not only improve our capacity; the new furnace is also much more environmentally friendly and energy efficient.

1<sup>st</sup> of September we welcomed Johan Isaksson as Nordic Flanges Group new *Sales Director*. Johan will be located at our Group office in Stockholm. Christer Pettersson also joined NFAB in Örnsköldsvik as our new *Strategic Sourcing Manager*.

Nordic Flanges Oy and Ferral Components Oy will be present at this year's subcontracting Alihankinta fair in Tampere from 25<sup>th</sup> of September to 27<sup>th</sup> of September. You are welcome to visit us at stand A816.

Nordic Flanges are proud to release the new ProQ™ pressure-approved aluminium flange. The flanges are Type 02 (German or Swedish type) and can be used with Type 35 and 37 collars (EN1092-1. Rubber and soft PTFE are suitable gasket materials. The flange material is EN 1706 AC-47000-K-F. You can find more information on our home page or by contacting NFOY, tfn. +358 6 8238 750.

I look forward to do business with you this autumn.

**Frederik von Sterneck**
