Stockholm December, 2019

Dear customers,

2019 is shortly coming to its end and what an eventful year it has been!

Nordic Flanges Group have gained some significant new wholesalers and OEM customers in the Nordic countries, Europe, Africa and in the US during the year. We also see a very positive trend in sales to Oil & Gas markets in Norway, the UK and Canada.

Our new arrangement NORDIC PIPE DAYS in April became a huge success. The conference offered a two day experience with knowledge, networking and innovation. Next conference 2020 will be held in English. 

Some of our major improvements and investments during this year have been the implementation of our new ERP system Monitor in all 4 group facilities. NFOY have refurbished their furnace which now runs more efficient and environmental. NFAB central warehouse in Järna has been relocated to the NFAB factory in Örnsköldsvik leading to more efficient logistics and shorter delivery times.

Ferral Components are currently installing a Unisign Univers 6 C2 – Universal Machining center. This machine will not only improve production time but also increase our capacity in the factory.

Nordic Flanges Group wish all our customers and suppliers a Merry Christmas and an exciting New Year 2020 with plenty of good business opportunities ahead!

Frederik von Sterneck
CEO Nordic Flanges Group AB (publ.)
