**Stockholm September 2:nd, 2019**

Dear customers,

We hope that you all have had a joyful, relaxing and sunny summer holiday! Our factories in Örnsköldsvik, Kronoby and Kalajoki have all used some of the summer weeks for machine maintenance and all three factories are now fully up and running.

Beginning of August our new Quality Manager started at Nordic Flanges in Örnsköldsvik. Her name is Emma Lundberg and she holds degrees from universities in both Sweden and Germany.

During this summer we have completed our big ERP-project. Nordic Flanges Group now operates with MONITOR at all 4 group facilities.

During early spring we started to move our central warehouse from Järna outside of Stockholm to Nordic Flanges factory in Örnsköldsvik. The warehouse move was completed end of June.

Nordic Flanges OY are currently bidding for some very interesting OEM-projects. We have the ability to cast much more than only the aluminium flanges in Kronoby.

A weak Swedish currency has led to an export boom for Nordic Flanges in Örnsköldsvik. We have received several very interesting orders mainly within the Off Shore and the Oil & Gas sectors from the USA, U.K., South Africa and Norway.

Frederik von Sterneck  
CEO Nordic Flanges Group AB (publ.)
